Days went by quick, hours were just a flick of the eye. Life was becoming full of trepidation , uncertainty; will my life ever go back to normality. How could a virus cause so much disturbance to so many lives? People passing away like waves crashing on the rocks, a normal thing yet not in his way. Why was this virus happening now? Does it have a real meaning? I wanted to discover. Sensing curiosity. I wandered outside into the natural atmosphere, I looked at the pure trees. I felt something unusual. The thought of trees flickered my eyes.

## Realisation hit me!

Destruction is happening to our earth. The rate of deforestation is equal to 20 football fields lost every minute. This is outrageous! But nobody is doing anything about this horrific matter. Our astronomy is punishing us. It wants us to understand what we're doing. Trees can help cure deadly diseases.we only decide to make a change to our lives when humans are hit by death at rapid speed but when trees are. Trees make an incredible contribution to our lives. when our world was formed we were given a worl of

This field does not show pupils who actually received free school meals but the percentage of those who are eligible to receive them. Home and 32 lessons, including 12 joint observations with members of the senior leadership team and two occasions when several short observations of lessons were conducted. Meetings and discussions were held with groups of students and members of the governing body, parents and carers, and the school staff. Inspectors took account of the responses to the on-line Parent View survey in planning the inspection. They observed the school's work, and looked at the school development plan, minutes of the governing body's meetings, documents relating to safeguarding and teaching records. Inspectors analysed 452 questionnaires from parents and carers, in addition to those completed by students and staff. The full report is available from the Ofsted website. Key findings This is an outstanding school in all aspects. It is successful in living up to its motto of 'high achievement with care and discipline for all'. Much of this success is because the excellent leadership of the school at all levels supports high-quality teaching. Although the school has worked hard to ensure that parents and carers are well informed of their children's progress, communication with a small minority does not fully engage them in the life of the school and in their children's learning. All groups of students extremely well in learning. They have high expectations of what each students are respectful of each other's differences and behave maturely around the school. They are exceptionally well-motivated to learn. Attendance is above average and is improving and students are punctual to lessons. Leaders and managers enable the school to perform exceptionally well in all aspects. The impressive curriculum provides a broad and balanced range of rich and memorable experiences that greatly enhance students' learning. The school enthusiastically embraces the broad range of different heritages represented. As a result, students develop an informed view of the world which strongly underful holiday everyone. Rating 2018 Rating unique rating system takes into account a range of different indicators to evaluate a school's performance. The system tracks achievement, pupil progress, teaching, pupil attendance and whether the school is improving. The 2019 KS2 tests were assessing a new curriculum that was introduced in 2014. Ratings for years before 2016 were based on how the school performed on the previous curriculum so performance is not directly comparable to 2019. Data may be missing for some indicators because it is very small so data has been suppressed to avoid identifying individual pupils. Schools do not lose points for missing data, so will still fare better in the ranking than schools that underperform on that indicator, but they cannot score as highly as schools that perform well on the indicator.
